IMTS

CEO MESSAGE

Our world is changing quickly and dramatically. How can steel companies survive such a severe and rough era if they don't start doing things differently?

IMTS with all its history and legacy started the process of re-inventing itself as a modern, flexible, dynamic and responsive company that will put innovation as its main drive for the future.

Innovation in such a conservative business where any new idea or a change in a product Delivery may seem quite challenging.

IMTS

VISION & MISSION

Vision

IMTS is striving to Deliver steel products that are differently developed to ensure customer satisfaction through continuously attempting to better understand the market, optimize mutual success by sustaining its core competencies of internal processes efficiency and investing in developing its employees who always aim at pursuing collaborative efforts, constant dedication, perseverance and integrity in doing business.

Mission

Bring to the world a different approach in flat steel supply, inspired by a true understanding of our clients' markets, resulting in value products customization that will promote ultimate mutual success.

We Are a Powerful Modern Team in Metal The overall
delivery

IMTS

LET'S CONNECT WITH US

International Metals Trading & Services

The overall delivery point can reach the ports of various countries, supporting land transportation, sea transportation, and air transportation; customers can provide freight forwarding by themselves, and we support FOB, CIF and other prices. At present, we have purchased warehouses in countries close to ports such as Brunei and Malaysia. We galvanized Coils, galvalume coils, color-coated coils, etc. are all available locally, support inspection, and provide tools to inspect the zinc layer.
